TWO KILLED AT RUMFORD

Eddie DeRoche and Henry Leonard were instantly killed Friday morning when the head of a tank in the boiler room of the Oxford Paper Company, Rumford, exploded. DeRoche and Leonard were in the room together with Carl Fries who was directing the work. All three were employed as steam fitters of the repair crew at the mill. The cause of the explosion was not announced.

Carl Fries, the third member of the crew, was not injured although knocked down by the explosion.

Lernmond came to Rumford from Bath four years ago. He is survived by his widow, Grace, also a son 15 years of age. DeRoche is survived by his widow and four children. He came from Missechu, P. E. L., seven years ago.

CHANGES IN CIVIC LEAGUE

Two radical departures from its customary procedure are announced by the Christian Civic League of Maine, through its new Superintendent, the Rev. Frederick W. Smith of Waterville. One will interest the general public, officials in particular, and certain groups of lawbreakers also, to learn that Mr. Smith has announced that the League will no longer use its officials as detectives in obtaining information and evidence for court use.

Instead of carrying on this line of work, in prosecuting violators of the law here in Maine, it is proposed that the workers shall put the burden upon the police where it properly belongs, in the minds of many; and the League will only "back up" the public officials who are derelict in their duty as well as back up those who are doing a good piece of work.

It is felt that the officials and general public will approve this procedure, and that it will strengthen the work of the organization and its backing.

Another new proposal is to bring the program and the policy of the League to the churches and their supporters for their consideration and advice. "The League is the arm of the church," Mr. Smith says, "carrying on the work of the churches. They have a right to know what we are doing, what we plan to do, and how we propose to do it."

To this end, a series of ten district conferences have been arranged beginning in Auburn on Jan. 2, at the High St. M. E. church. This is followed on Jan. 4, with a conference at Machias, on Jan. 7, at Dover, and on Jan. 9 at Houlton, Jan. 10 at Presque Isle, Jan. 11 at Bangor, Jan. 17 at Rockland, Jan. 19 at Portland, Jan. 23 at Sanford, and ends with the Annual Convention at Waterville on Jan. 27 where Dr. F. Scott McBridge, General Superintendent of the Anti-Saloon League of America and Dr. Ernest H. Cherrington, General Secretary of the World League Against Alcoholism will be the speakers.

Another thing that the new superintendent of the Civic League is doing is to resurrect the Civic League Record. Many will remember it as being valuable for its record of work done and its general information of needs throughout the State. Since its publication was stopped, some time ago, the workers in this field have depended upon a national edition of the "American Issue," which while useful has not met the needs here in Maine.

A monthly edition of the Civic League Record would take the place of the monthly issue just referred to. Mr. Smith aims to make it a vehicle for the attention of friends in the organization regarding local conditions through Maine.

FIGHTING THE NEWSPAPER

A mistaken idea with some people is that the newspaper is an individual proposition. If they don't like the editor, they feel they must knock him over and stand in the way of its success whenever possible. They do not realize that the local paper is just as much a part of the community as the schools, churches, or anything else. The newspaper is different from any other business, it is a community affair. It is for service to the people and not for any individual. You may not like the editor and the editor may not love you any too well but the paper is responsible for doing just as much for you as the service rendered others. There is nothing personal with it. It is here for a purpose and that purpose is to do what good it can in every way it can; the greater the part of those it undertakes to serve the better service it can render. It takes the people to make a good newspaper and without the help of the people, no one can run a successful newspaper. It requires money to operate any kind of business—even the churches, and the papers are no exception, and for this reason they must have the financial support of the business interests as well as the good will.—Hastings (Ola.) Daily Record.

CHRISTMAS CANTATA

On Christmas night the choir cantata, "The First Christmas," by Ira Bishop Wilson was given in the Congregational Church.

Under the direction of Rev. L. A. Edwards, assisted by Mrs. P. E. Russell as organist, this cantata was admirably prepared and presented to an appreciative and large congregation.

The old, old story of the Divine Prophecy and the Fulfillment of God's promise to his waiting children was inspiring and beautiful. The cantata was rendered by a chorus of twenty-one mixed voices with solos interspersed. Each solo number merited special praise for unusual beauty and harmony.

The alto voices of the chorus were Mrs. Edward P. Lyon, Mrs. L. W. Russell, the Misses Margaret Carter, Madeline Brink and Katherine Herrick; sopranos, Mrs. Percy Beineke, Mrs. Harry Lyon, Mrs. H. H. Hastings, Misses Barbara Herrick, Ruby Knapp, Thelma Bennett, Faye Sanborn, Helen Carter and Kathryn Hanson; tenors, Messrs. Charles E. Valentine, Arthur Dudley and Richard Russell; basses, Dr. L. H. Wright, Messrs. Harry Edwards, Guy L. Thurston and Percy Beineke.

Both directors and choir members have received well deserved appreciation for their success in bringing to an enjoyable culmination, this superb musical production.

The program in full is below: Women's Chorus—The People That Walk in Darkness with Baritone solo, Harry Edwards.

Soprano solo, Bethlehem. Mrs. Edward P. Lyon.

FARM BUREAU NEWS

Farm Bureau planning meetings held much attention in Fryeburg, East Fryeburg and Hiram, last week. Nine men and women met at the I. O. O. F. Hall at Fryeburg Center, Thursday, Dec. 29, for their annual farm bureau planning meeting. Splendid reports of last year's work were given by the members and plans made for much extension work in the community for 1928. A splendid dinner was served at noon by the ladies of the organization. Interest in the Farm Bureau is very keen this year. The women have increased their membership from 12 to 19 and they have not stopped yet. New projects in garment making, renovation of furniture, and foods, promise to be very fascinating. The officers for Fryeburg community are as follows:

Men's division: chairman, Francis Buzzell; dairy, L. D. Charles; farm management, Leo R. Bell; forestry and poultry, Stillman Barker. Women's division: chairman, Mrs. Leah Charles; secretary, Mrs. Florence Baker; clothing, Mrs. Gladys Pray; foods, Mrs. Maude Gray; household management, Mrs. Marjorie Guphill; millinery, Mrs. Bessie Barker.

At East Fryeburg, Friday, Dec. 30, the school children gave a very interesting program, consisting of readings and recitations. East Fryeburg also has increased its membership from 5 to 17. A full extension program was planned by both the men's and women's divisions. Officers elected are as follows: men's division: chairman, Warren Richardson; farm management, Earl Osgood; forestry, Lewis Walker; crops, Samuel Richardson; dairy, Earl Osgood. Women's division: chairman, Mrs. Laura E. Richardson; secretary, Mrs. Bernice Harnden; clothing, Mrs. Mavis Warren; foods, Mrs. Laura W. Richardson; household management, Mrs. Abbie Brown; millinery, Mrs. Lettie Lord.

Hiram beat the country so far in local program and attendance. The hall was a scene of meriment when four ladies demonstrated "How the Women go to Farm Bureau Meetings in a Ford." Mrs. Ida Clemons, Mrs. Dorothy Page, Mrs. Velma Spring and Mrs. Ethel Moulton participated in this exciting ride. Who says a woman can't blow up tires after seeing that?

Fifty-two people sat down to the delicious dinner served by the ladies' organization. The afternoon program was also well attended when plans were made for 1928. Following are the officers elected:

Men's division: chairman, R. N. Lowell; clubs, B. F. Twitcheell; crops and dairy, A. M. Noble; farm management, J. M. Moore; forestry, H. N. Lowell; poultry, Tom Hammond. Neal; household management, Mrs. Henrietta Hammond; millinery, Mrs. Velma Spring.

You are gone but not forgotten. There will be a vacant chair. Altho you are deep in slumber We still seem to think you there.

Football Most Brutal Sport

"COLLEGE football is more brutal than boxing," Gene Tunney, heavyweight champion, told members of the Men's club of the Lafayette Reformed church in Jersey City, Tunney was the guest of Gov. A. Harry Moore of New Jersey.

"I attended a football game in Washington recently," said Gene, "and I saw five men knocked out clean. All of them required the attendance of surgeons and were revived. I never saw such a spectacle in boxing."

The champion declared that injuries received in football were often apparent twenty years later. "Injuries sustained in boxing," he said, "are more permanent than those received in football."

The reason why brutality goes unnoticed in football, according to Tunney, is that the spectators are too busy watching the ball to be worried about what happens to the men. In boxing, he said, the eyes of the crowd were upon the men; hence staggering blows and subsequent injuries were thrown into the spotlight.

In football, according to Dempsey's conqueror, the men followed the coaches' ideas or were removed from the game. In boxing it was up to the individual to rely on himself, he said.

When the champion had finished contrasting football and boxing to the detriment of the former he launched into a discussion of the history of pugilism. Appropriately enough, he began with mention of pugilism by Homer in the "Iliad." From this point in remote antiquity he followed the sport through Pompeii and the Roman days to the present.

Before going to Jersey City Tunney turned out to be the lion of the evening at an entertainment featuring some of the highest luminaries of the literary and theatrical worlds given by the Authors' League of America at the Roosevelt hotel for the benefit of the league's funds for needy writers.

Impeccably attired in evening clothes, with a dress tie knotted just right over a gorgeous expanse of white shirt front, Tunney fought a battle with woman novelists and short-story writers who seized his hands and tugged at his arms or coat lapels and pulled him about the room while gushing introductions to their friends.

Gene Tunney.

JEFFRIES STOPPED CORBETT IN CAMP

Previously Unwritten Chapter of History Disclosed.

Disclosing a bit of previously unwritten fight history, Jim Jeffries, in a chapter on his career, published in a recent issue of Liberty, relates how he knocked out Jim Corbett while the latter was preparing for the fight in which he lost the heavyweight title to Bob Fitzsimmons in 1887.

The knockout, as Jeffries tells the story, occurred when he first put the gloves on with Corbett in the latter's training camp at Carson City, Nev. Accounts of the meeting at that time and since, however, has credited Corbett with knocking out Jeffries, then a raw but powerful youngster recruited from a Los Angeles boiler shop to serve as a sparring partner for Corbett.

"Corbett didn't knock me out; I knocked him out," Jeffries is quoted as saying.

"The story that he knocked me out was just a hullo for the light-to-worry Fitzsimmons and boost Corbett's stock by crediting him with a knockout punch. Delaney (Corbett's manager) told me to say nothing and to be sure not to contradict it if anyone asked me and I never did."

According to Jeffries' version of the affair, which occurred behind locked doors, his temper was aroused by an attempt to have him expose his chin for a knockout blow from Corbett.

"They wanted to see if Corbett had a punch and they got me to step in and leave my chin uncovered while he took a punch at me. It made me mad to know I'd been tricked. My lip was cut against my teeth, but Corbett never knew it. I rushed him and mixed for a minute, then I got a punch over. I hit him and knocked him against the wall so hard he nearly went through."

"Then I patted him a couple of good ones to keep him there and his hands dropped. He was done for and another punch would have finished him. They rushed in and pulled me away and gave me time to cool off. There wasn't any more boxing that day."

John Heisman to Retire as Coach of Football

With the close of the 1927 football campaign rounding out a coaching career of 36 years, John W. Heisman, athletic director and head football coach at Rice institute at Houston, Texas, has announced his retirement. With the exception of Amos A. Stagg, of the University of Chicago, no man has coached football longer than Heisman.

The veteran announced his resignation at a banquet of Rice students. The resignation has been accepted and while the six-year-old mentor did not outline his plans for the future, he indicated he had reached his last football team.

Before coming to Rice, Heisman coached for several years at Georgia Tech, including 1917 when the Golden Tornado ranked as one of the country's leading eleven.

Jockey Hardy Now Holds World's Record for Wins

"Longshot" Hardy, a tall of eight-teen, with only one year's experience in the saddle, holds the world's record for winning mounts on thoroughbred horses for a single season by virtue of riding to victory in 37 races.

Previous records were held by Ivan Parks, with 28 winners, and Tony Garner, with 26.

Hardy is the third male to cross 30 in the history of the American turf. He broke in on Ohio tracks in 1926 and was several months getting his feet under him. This happened on September 30, 1927, at Columbus. Last spring Hardy began riding on Chicago tracks, almost unknown, and became a sensation almost overnight. He "hooked" Thurnell purchased Hardy's contract for \$12,000, and Hardy has since been riding for the Three F's stable, managed by Thurnell for E. T. Waggoner, Texas millionaire.

Sport Notes

Holmes Saguero, Chicago's newest little sensation, is a former chief.

The New York Giants have selected Augusta, Ga., as the site for their 1928 spring training.

Tex Rosen, Rutgers' athletic star, is likely to win four letters in major sports this season.

Already twenty intercollegiate college football games have been carded for the 1928 campaign, early schedules reveal.

A new goal net, which keeps the puck from bounding back into the playing area, is being used by the National Hockey league.

Manager McGraw of the Giants announces that his battery men will be sent to Hot Springs in February for a preliminary drilling out.

Charles Scalfetty, a young southpaw pitcher in the semi-pro ranks at Parsons, Kan., has been signed for a trial by the St. Louis Browns.

Kid Francis, Italian bantamweight, has placed himself in the first rank of that division by virtue of his recent ten-round decision over Archie Bell.

The luminous golf ball for night playing, tried out in the East, ought to be profitable if some hunter doesn't mistake it for a one-eyed wolf.

Having greyhounds are weighed in at a week of the racing day and if the dog's weight is one pound above or below normal it is not allowed to compete.

What is apparently the very apex of executive efficiency has been achieved by a millionaire in Washington who retained a permanent amateur to play his golf.

Georges Carpentier, who once essayed to take the world's title championship from America, is now a public dancer in France. He got that way in the American ring.

A Shames paper reports the arrival in Bangkok of Somdech Phra Saba varinda Paramahansa's Phra Banavansa Matheha Chao. Sounds like an All-American football selection.

Lancelo Fernandez, Philippine featherweight, who has been going good among the topweights of the country, is probably the best fighter from the islands since Pancho Villa.

The Brooklyn Robins "are" come into the college ranks to sign Barnham Lee, star athlete of Mississippi college. Lee was absolutely on the base-ball team and captain of the football eleven.

It is understood that for more hit third matches will be permitted to the one held by the contestant he known by some other name than "Knobbs."

At Hudson City, N. J., a pair of new 12-gauge models, for all sporting purposes, and revolved \$7,000. Griffla also got a slice of the money, and it is said they secured \$1,700 overall.

Just as to the return of Manager Bert Nichols to Atlanta, was dispelled when President H. J. Spiller announced at the Southern league meeting in Memphis, that Nichols would again pilot the Crackers.

Modern Grid Training Real Strenuous Ordeal

Training for college football is a serious thing nowadays. A man going out to make his eleven must often sacrifice his ambitions in the field of basketball, basket ball and other sports.

Of course the man who has won his letter in three major sports still exists, but he is becoming rarer and is found mainly at the smaller institutions, where athletic competition is not so stiff.

Big colleges, and little ones, too, for that matter, have spring practice. There are summer occupations of arduous work to keep in condition. There is the early autumn session of intensive training at a camp or secluded establishment.

Also there are the regular practice sessions and the informal practice sessions; there are the matters of clothes, sleep, associates, mental attitude. On top of all is the coaching system.

In the football season the day of the members of the squad begins usually about 7 a. m., the men having breakfast at the training table. The rest of the morning and early afternoon is given over to studies and lectures.

Practice begins some time between 3 and 5 p. m., depending upon the school's program. Nearly every coach gets two hours or more of work out of the members of his squad every weekday, and several coaches are resorting to night practice, using either a "ghost" ball, the leather being painted white, or powerful are lights overhead.

Tower of Strength

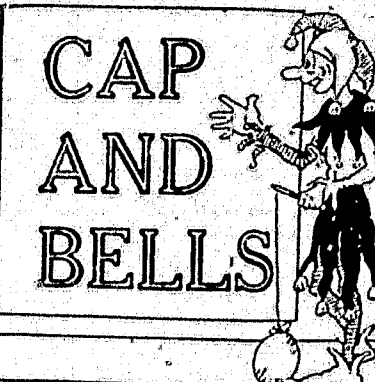

After playing second fiddle to the incomparable George Kelly at first base for four years, Memphis star Terry finally got his chance last spring to play regular for the Grays. He played the game of his life and was a tower of strength to Metcalf.

Mule Shirely Regained in Trade by Griffmen

Ernest (Mule) Shirely, the North Carolina university first base product, who received quite a thorough inspection with the Griffmen a few years ago, has been brought back into the fold.

President Clark Griffith announces that Shirely has been obtained in a trade with the Rochester club, in which the international leaguers got title to Shierston Dumbly Dore, who joined the Nationals last summer, straight from the campus of Virginia Polytechnic Institute.

Shirely, a left-hand thrower who bats in the orthodox fashion, last season was named to Greenville, where he helped that club win the South Atlantic league pennant, clearing some \$1 home runs in the process of registering a very respectable batting average. He is to be retained as an underdog to Joe Judge, regular vestal guardian and first baseman.

CAP AND BELLS

ANOTHER NEW DRESS

"Was your husband chopping wood last evening?" inquired Mrs. Pryor of a neighbor suburbanite.

"Chopping wood, no! He was detained in the office on business all the evening. What gave you that idea?"

"Well, I heard him tell my husband that he accumulated a good healthy pile of chips before he quit."

Nothing More

"Really," said Charles Cushing to his tailor, "I feel that I owe you—"

"You do?" interrupted the tailor.

"An apology for having kept you waiting for your money so long. So I thought I would drop round and pay you—"

"Thanks."

"And pay you the apology. Good day."

THE REASON

"Why did your mother send you yesterday for kissing Tom? You are engaged, aren't you?"

"Yes, indeed! But not to Tom."

Hard Work

The laziest man, without a doubt, may often know fatigue surprising. He's naturally tired out by constantly contemplating!

More Emphatic

Smith—Does your wife ask for things she knows you can't afford?

Wilkes—She hasn't asked for a thing since we were married.

Smith—What a model of a wife! I never heard of such a thing before!

Wilkes—No; when she wants anything she doesn't ask me—she tells me.

A Joke for Father

Girl's Father—Well, young man, what can I do for you?

Her Son—I've called to see if you would give assent to my marriage to your daughter.

Father (to six daughters)—Give a cent? Bless my soul, young man, take her and I'll make it a dollar.

DOWN AND OUT

I found—I suppose it was a great satisfaction to you to see your husband going up so rapidly in his profession? Aviator's Wife—I can't say I do. I'd rather see him down and out.

Everything for Style

She thinks a lot of herself. She has a lot of money. And so she takes her exercise from which police mainly.

Matter of Calculation

Home—Hark, I want you to cut time to do the house. I'm going to take your salary to town to my house. Jones—But before I leave I must do a bit of shopping to see how it goes out.

Very Odd

English Advertisement: "Wanted: An air compressor for compressing air."

Isn't it amazing the odd uses to which people will put things?

Fitting It

"The mail man returned this letter because it's out in town. Do you know anything about it?"

"Sure," replied the office boy. "It was too large to go in the slot as it was."

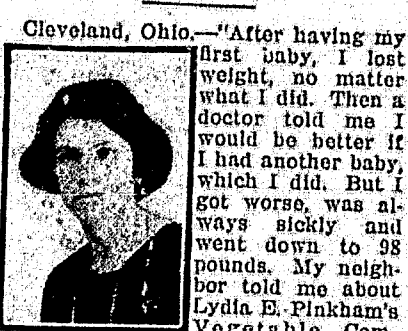

Outside the Hat Shoppe

"How much longer are we going to wait for mamma, daddy?"

"Not long now, dear. They're just taking the last hat out of the window."

SHE WENT FROM BAD TO WORSE

Down to 98 Pounds—Finally Restored to Health by Lydia E. Pinkham's Vegetable Compound

Cleveland, Ohio.—"After having my first baby, I lost weight, no matter what I did. Then a doctor told me I would be better if I had another baby, which I did. But I got worse, was always sickly and went down to 98 pounds. My neighbor told me about Lydia E. Pinkham's Vegetable Compound."

Lydia E. Pinkham's Vegetable Compound may be the good fairy who offers you better health.

Health? That's the best gift. Health is riches that gold cannot buy and surely health is cause enough for happiness.

Drink Water to Help Wash Out Kidney Poison

If Your Back Hurts or Bladder Bothers You, Begin Taking Salts

When your kidneys hurt and your back feels sore don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract.

Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which helps to remove the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood.

In 24 hours they strain from it 550 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of good water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys may then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help clean and stimulate clogged kidneys; also to neutralize the acids in the system so they are no longer a source of irritation, thus often relieving bladder weakness.

Jad Salts is inexpensive, cannot injure, makes a delightful effervescent lithia-water drink, which everyone should take now and then to help keep their kidneys clean and active. Try this; also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

Severe Head Colds and Sinus Trouble
THE MOST ANNOYING OF ALL AILMENTS

Any stuffy nose from a cold that does not clear up in a few days produces sinus trouble. These sinuses are large cavities in the nose, which are small like honeycombs, and which a cold gets into them it causes pain, redness in the eye balls, sore eyes, in temples, and back of head, fullness in ears, and worse draining in throat. This leads to a tickling cough, sore throat, head aches, and catarrhal drainage, causing a runny nose. To clear this up, use the famous CALIBROL, and inhale according to directions.

CALIBROL opens up the nose, and gets into the sinuses, killing the germs that multiply by millions in these stuffy cavities. The inflamed swollen mucous membrane gets better, good drainage for the discharge. This is what every expectant tries to obtain in order to get relief. It is impossible for germs to live in the nostrils, a power produced by CALIBROL. Keep a jar handy and use at the first sign of a cold.
